PROFESSIONAL SUMMARY

Full Stack Developer in training at EBAC, with a solid technical foundation in modern front-end and back-end technologies. Analytical profile focused on problem-solving, creating REST APIs, and developing efficient, scalable web applications. Prior experience in logistics organization and administrative processes, ensuring a strong sense of responsibility and teamwork.

TECHNICAL SKILLS

Languages & Frameworks: Python, Django, JavaScript (ES6+), TypeScript, React, Next.js (App Router), Vue.js, Redux Toolkit

Styling & UI: Tailwind CSS, Shadcn/UI, SASS, LESS, Bootstrap, Styled Components, HTML5, CSS3, Responsive Design

Database & Back-end: PostgreSQL, Supabase, Prisma ORM, Relational Databases, API Development, AJAX

Testing & Tools: Git, GitHub, VS Code, Vercel, Cypress, React Testing Library

Languages: Portuguese (Native), Spanish (Fluent), English (Advanced)

ACADEMIC BACKGROUND

Full Stack / Front-End Development — EBAC **08/2023 – 12/2026 (Expected)**

Core Curriculum: HTML/CSS, JavaScript (ES6+), TypeScript, React, Vue.js, Redux, SASS, Bootstrap, Git/GitHub, OOP, AJAX, and Automated Testing (Cypress, React Testing Library). Developed 5+ practical web projects.

Technical Degree in Internet Informatics — IFSul **03/2014 – 12/2017**

RELEVANT PROJECTS

1. SelfCheckApp (FSW Donalds) — Full-Stack Ordering System

Next.js, TypeScript, PostgreSQL, Prisma, Tailwind

- Self-service platform with relational database integration for product/order tracking, UI optimized with Shadcn/UI, and Server Actions for data handling.

2. PsyCare — Mental Health Platform (In Development)

Next.js, TypeScript, Supabase, Prisma

- Full-Stack application connecting psychologists and patients, featuring complex data modeling for medical records, focusing on data security and privacy.

3. Professional Portfolio — Personal Landing Page & Pomodoro App

Next.js, React, TypeScript, Tailwind, Framer Motion

- Central project hub focused on performance, interactive components, fluid animations with Framer Motion, and responsive design, paired with a Pomodoro time-management app.

PROFESSIONAL EXPERIENCE

Brasil Free Shop — Warehouse Assistant **02/2024 – 07/2025**

- Stock organization and logistics process optimization to ensure efficient store replenishment under pressure. Precise registration of transfers and goods movements.

Tapeçaria Para Todos — Warehouse Supervisor **05/2023 – 02/2024**

- Inventory supervision and expiration date control, ensuring record accuracy, product reception, verification, and classification to improve operational flow.

Noronha & Reis — Administrative Assistant **05/2022 – 08/2022**

- Support for general administrative routines and maintenance of internal control records.
